

## What is Your Idea of a "Free Campus"?

- 1) My opinion about a free campus would be a place where teachers and students interact freely. The students are heard by authorities and their thoughts are acknowledged with special reference to the curriculum making. A place where girls feel safe just like their male counterparts. **Anoop Awasthi, Delhi Law Faculty**

- 2) A place where students have their say in important decision making process. Rather it should be a collective effort where all the stakeholders in the campus work towards the betterment of the campus. **Nimisha Aggarwal, Miranda House**

- 3) A platform where students get a chance to speak and their opinions are respected by the higher authorities. There should be more personal interaction between the teachers and the students. **Aldeena Raju, D.U**

- 4) Student's council should be genuine in their working where the thoughts and opinions expressed by all students are represented. It should not be a one man show where only one particular group or party dominates the council. **Ananya B., Times Business School,**

- 5) Since a campus runs for the betterment of the students who study in it, the major role of decision making should be handed down to the governance of the students. The officials, teachers and all other higher authorities can work in collaboration with the students with limited interference. **Aashutosh Aggarwal**

- 6) A FREE CAMPUS -1) eliminating undue administrative restrictions for e.g all forms and formalities should be made online so that students would not have to depend on clerks and haggle with them, 2) it should be a site of freedom of expression and free exchange of ideas with students initiative a regular routine, 3) freedom to dress the way one wants and not being dictated by anyone. **Amruta, Pune**

- 7) My idea of a free campus would be a place where even the underprivileged gets a chance to grow in life,

where the poor can get to study at a lesser cost or no cost at all. A place where everyone has an equal say and not one person or authority rules the campus. **Rishab Khurana, NSIT**

8) A free campus is not only a right of the students but also a platform to explore their leadership qualities. For eg students politics in a campus is the 1<sup>st</sup> step one take before the big leap in the state or national level politics. **Keshav Gupta, Hansraj College, D.U**

9) Free campus for me is not just being free in the literal sense but takes into consideration freedom of choice, free thinking, no forceful imposition of values and doing things as we ought to do. **Martina Roy, Jesus and Mary College, D.U**

10) Free campus represents FREEDOM OF LIFE. **Sijit Thomas, D.U**
